

LaZee Mouse™ CURSOR

Data Sheet

Model # LMC-101

FEATURES

- Designed to fit the User
- Quick & Easy Setup
- Easy to Operate
- No Software Required
- Uses no processor resources
- Platform Independent (PC, MAC, Unix)
- Compatible with All Hardware & Software
- Works in conjunction with all mice, trackballs, touchpads, etc..
- Extended Warranty Options
- Custom Modifications available
- 2 Year Warranty
- CE ROHS

General Description

LaZee Mouse™ CURSOR is part of the **LaZee Mouse™**, family of computer input devices, that provide hands-free computer access for people with a wide range of disabilities. This remarkable product provides full mouse cursor functionality and is engineered to integrate with each user's unique abilities. This sensational development frees the mouse functionality from the user's hand and allows the user to decide where best suits their needs.

These extraordinary devices are compatible with all hardware and software products. They are portable and interchangeable between laptops, desktops, MACs, PCs, and Unix systems, and can be used simultaneously with other pointing devices. Universal Design concepts allow us to provide special orders at a modest cost.

Cursor Control

This fully self-contained unit uses internal tilt sensors for full cursor control, and is often worn and "tilted" to initiate cursor movement. Tilting on two axis' activates up/down and left/right cursor control. The sensor is "calibrated" to the user by initiating the home button, effectively operating as a joystick in space. MEMS technology provides extremely precise, fully proportional cursor control.

Extremely lightweight, this unit is well suited for use on the head, as well as other locations. Weighing less than 2 ounces, this unit can literally be worn from "head-to-toe" and activated by body movements, or mounted to an object, and manipulated by the user. The unlimited possibilities for unit placement and activation, are designed to accommodate the user's abilities.

SPECIFICATIONS

- LaZee Mouse™ Unit
- Size: 1.5" x 4.0" x 5.5"
- Weight: 1.5 ounces
- Home Input: 3.5mm N.O. Contacts
- Operating Temp: 0 - 35C
- ESD - Standard ESD Precautions

System Requirements

- Electrical: Powered USB Port
- Software Compatibility:
 - Windows™ ; 8, 7, Vista, XP, ME, 2000, 98
 - OSX™ ; 8.0 and above,
 - Unix™ with HID Driver

Button Functions (Click/Drag)

The CURSOR model is a cost effective model for the user that has other methods of producing clicks and drags. While the LaZee Mouse™ CURSOR produces no button functions, it is fully compatible with any click/dwell, speech recognition or other software and/or hardware products that do provide "clicking" (as are all LaZee Mouse™ Models)

Contents of Package

- LaZee Mouse™ CURSOR Unit
- Headset
- USB Cable & Extension
- Operating Instructions

External Home Input

Unique to the LaZee Mouse™ CURSOR is an input jack for the "Home" command. This allows an external switch (not included), to activate the Home function, in addition to the built in switch.
